

MISSION

We transform lives through research and innovations in treatment and prevention of depression and bipolar disorders

VISION

A world free of stigma where everyone has access to effective, evidence-based care

2025-2030 STRATEGIC FRAMEWORK SNAPSHOT

RESEARCH

Advancing scientific mental health research & discovery

1. Support the advancement of collaborative, breakthrough research projects
2. Expand participation and utilization of the Mood Outcomes Program
3. Cultivate high-performing, outcome-focused Task Groups

DELIVERY

Driving innovative access, coverage & high-value care delivery options that can be scaled

1. Assist members in identifying and closing gaps to access
2. Support the scaling and expansion of innovative member care models and treatment options
3. Disseminate practical tools and best practices to close gaps in care delivery

IMPACT

Transforming people's lives through education & advancing collective impact

1. Expand and scale community and workplace programs
2. Facilitate premier Continuing Professional Development (CPD) programs
3. Explore and support broad-scale advocacy opportunities
4. Advance internal and external communications

COLLABORATION | Harnessing the power of the Network through strategic partnerships, collaboration and mentorship

1. Strengthen the collective impact of current and future NNDC members
2. Expand collaboration within Network sites and with external strategic stakeholders
3. Encourage and develop the current and next generation of leaders, clinicians and researchers
4. Grow our current financial resource development strategy
